WASHINGTON CITY.

National Bank Losses.

WASHINGTON, Sept. 23.—The comptroller of the currency has compiled dividend reports of National Banks for the six months ending March 1, 1878, from which it appears that the banks charged "off" losses during that time amounting to $10,903,145. Of this amount $3,965,707 consisted of premiums on bonds held for circulation, which depreciated in value below the cost price to the banks. The losses charged "off" by the National Banks during the year ending Sept. 1, 1877, were $19,719,024, and for the year ending Sept. 1, 1877, $19,933,587, making a total of $50,000,000 losses charged "off" in the past two and a half years. The Washington Riots.

WASHINGTON, Sept. 23.—Cohen made no attempt to-day to march his mob. Simms, who was arrested on Saturday for striking an officer on the nose, was in the police court this morning in giving his decision Judge Snell said he held that Cohen had excited the feeling of riot among the more deluded of the laboring class that, unless checked, would lead to serious results. That while he would not hold this sort of thing he was disposed to keep out of the way of the police, yet he held that Cohen and his followers became victims. That the mob and processions similar to those which Cohen were riotous and dastardly; that the property and lives of people were in danger and should death result from any of the proceedings, each follower of Cohen would be responsible for homicide; that it was time to stop, and that the workingmen had nothing by it, and that Cohen was a fool if he could do them no good. He closed by saying that the accused was one of the victims that had become worked up to a state of excitement somewhat excusable. He would fine him $10, or in default, 30 days in jail. The fine was paid by Cohen.

Application was made on the superintendent of police for a permit to inquire if he could hold a meeting to-night at the city hall. The superintendent informed him that he had no authority to give him permission to hold a meeting at the city hall was under the control of the U. S. marshal. While Cohen was in communication with the superintendent, an order was issued from the district commissioners, directing the police to allow any more noisy demonstrations anywhere. Orders were issued, and the police are now patrolling the streets.

Smith is the wealthiest man in this county, and is esteemed as an exemplary citizen. Journey is a hard working farmer of good reputation. Trouble has been brewing between these men for some months, growing worse all the time. It appears that Journey had got a lease from Smith for his ranch two years ago for eight years, but Smith being dissatisfied with the management of affairs, proposed to buy Journey's lease, which was refused by Journey. Smith was shot while in his buggy, and six buckshot entered his right shoulder and arm. Smith and Journey were each provided with shotguns, and anticipated trouble. The affair proved unfortunate, and is deeply regretted by the whole community.

How is This?

TO THE EDITOR OF THE OREGONIAN:

Your strictures in yesterday's issue in regard to the treatment which this man J. K. Mercer received at the hands of the officers are very just. The scales of justice ought to be kept evenly balanced for all. But what do we find? A number of loafers and vagabonds and imported tramps from California are permitted to enjoy their *otium cum dig.*, fed with food at the expense of the city, which many a poor family would be glad to enjoy; but when some ignorant Chinamen breaks the cubic air law, they are marched out and obliged to work. Is that just? Please answer, gentlemen of

PHENOMENAL ROMANCING

Mr J Le Seur of Hastings, Dakota county Minnesota has written a letter full of very remarkable things to a gentleman of this city He has interviewed a man who left Portland a few weeks ago and who tells him stories which as specimens of the art of high romance would leave Munchausen nowhere as a competitor This individual had returned disheartened by the prospect of Indian outrages throughout the whole of Oregon He found the savage warriors here not less than 60 000 strong, and believes that by next year they will have increased their force to three times that number Here is an imagination that can create Indians infinitely faster than Halstaff could multiply men in buckram This traveller also believes that the Indians within Oregon would think themselves strong enough by next year for a complete slaughter and extermination of the whites He would not allow that any place in the state is safe from the savage Even Portland and Salem are likely to be included in the general massacre, and Portland was terribly frightened last summer Yet he liked the country, all but the Indians These stories Mr Le Seur writes, have rather upset his calculations He would like to remove to Oregon and escape the tyranny of Minnesota's thermometer but he really doesn't enjoy the prospect of being butchered, and would like to know if in case of Indian outbreak, our principal towns would be safe from attack The raid made into Eastern Oregon last summer by a handful of beggarly Indians has thus expanded into a wonderful story The person who relates all these things will be prepared to tell something equally startling about Minnesota when he goes from that state to some other

The St Paul *Pioneer-Press* is of opinion that in view of recent elections the honest people of the country must at once make up their minds for a square fight with the roughs and fools It is immaterial under what name he honest men rally so long as they gather around the standard of "sound constitutional currency and unstained national credit" Let honest men stand firm, they can a thousand times better afford to endure defeat for a few years than to yield an inch to the shameless infection of cowardice and dishonor that is now marking for its own all the truckling and faithless elements in the land

We have not seen a copy of the speech recently delivered by Delegate Jacobs at Seattle, on the railroad question, but the *Standard* has and it says "Jacobs gloated with much satisfaction on the fact that he and Mitchell had been laboring strenuously to cripple the N P R R Co with impossible conditions and drive the company into declaring a forfeiture of its land grants" He also condemned the proposition to bring the road down the Columbia river. As he and Mitchell stood in together the Oregon senator's position receives from Jacobs' efforts new illustration

The Turks lost about 150 000 men killed and wounded during the recent war, and according to the *Invalids Russe* something over 40,000 000 cartridges were fired by the Russians, which would make the proportion of hits one in every 66 shots fired At Spicheren the Prussians scored one Frenchman for every 279 shots, at Worth one for 147 and at Columbey-Nouilly one for 114 so that if the Russian figures are correct the Russian soldier is a better shot or more economical of ammunition than his German cousin However, the Russians employed artillery fire more largely than usual

The London *Times* occasionally makes a remark nowadays on American politics that has a good deal of force, as when it says Gen. Butler has left the Republicans with the hope of assuming command of the "political Sodoms, the black cloud of irregular and undisciplined marauders that hover on the outskirts of war and threaten both parties at once"

The public has as yet heard from W S Chapman no denial that he wrote the indecent and defamatory matter which was at the bottom of the murder of Macdonald Of course any one against whom so heavy a charge lies would deny it if he could Whatever may be his greater legal liability, Mercer is not the one who is morally most responsible

LETTER FROM THE CAPITAL.

MATTERS OF VARIOUS IMPORT—A MULTITUDE OF BILLS—SENATOR GEORGE'S EQUALIZATION LAW —OTHER MEASURES

Saturday and Sunday were quiet days at the capital, and the denizens of the City of Peace worshiped under their vine maples and oak trees no clam-eating or sage brush legislator molesting them with the offer of half a dollar for a square meal The representatives of the great state of Oregon had gone, either to Portland or elsewhere and the eagles of the lobby, seeing no carcass, retired to their roosts Yesterday morning, however, the return set in and the city is quite as crowded now as at any time since the senator was elected But one or two members of the senate or house are absent, and the lobbyists are on hand in full force This latter class may be portrayed in some future letter, as they seem to constitute a leading feature in the biennial assemblages at the state capital

The two houses are starting in with a prospect of doing a great deal of work this week, and the people can only wait and pray that the work may be mingled with a due amount of wisdom Two weeks and a day of the session have passed, and still there has not been a single measure put into the form of law, though many of the bills introduced are well advanced toward the third reading One hundred and eighty nine bills and a large number of resolutions, memorials etc., have been presented As we have heretofore stated many of the bills are local in their character, many more are to effect more or less important changes in the code.

The senators have begun work upon the assessment laws and many measures new in this state and some which would be new to any state have been proposed. If out of the multitude of bills which have been offered on this subject a law should be framed that would bring order out of the chaos of our present system and a correction of the abuses and injustice which prevail, the legislature will have done one thing at least for which the honest people of the country will be thankful

Mr George's bill (S B 57) to provide for equal and uniform taxation and for the equalization of state taxation among the several counties of this state is one which is regarded with a great deal of interest It proposes the appointment by the governor of a state tax commissioner, whose duty as to assess all property in the state for state purposes. This assessment is to be made from the assessment rolls, or the copies thereof, which are filed in the office of the state secretary The commissioner is empowered by the bill to hear representations from the county authorities in the several counties, and such other evidence as he may deem necessary, and upon such testimony his duty shall be to equalize and adjust such assessments according to the strict value of the property. A roll of such equalized and adjusted assessment shall be filed with the secretary of state, and a certified copy of such roll be sent to the county clerk of each county The commissioner has power to make all rules necessary to carry out the provisions of the act, not contrary to the laws of the state and these rules shall be binding upon the assessors of the several counties There are further provisions in the bill, but the above named are its main features One objection to it is that it will be an additional expense in the cost of assessing Another is that it places the whole matter of the valuation of the property of the state in the hands of one man a proceeding which we apprehend will not meet with great public favor Mr George, however fully comprehends the evils of the existing laws on the matter in question, and is laboring persistently to reduce them

Another bill on the subject of assessments is S B 43 introduced by Mr Myers This bill simply repeals the clause of the old law which allows deductions for indebtedness and provides that such deductions may be made only where the party claiming them has debts due him he may set off against the same in his assessment the amount of any indebtedness due from him to persons in the state This bill is an experiment, and in many cases would work great hardship, and in effect would not reduce the evils complained of What is needed is a law to compel men to pay on what property they actually own and for which they are not indebted

Among the changes in the general laws proposed in pending bills may be noted H B 3 by Mr Bradley which makes the concurrence of three fourths of a jury only necessary in a verdict except in criminal cases provided the entire number cannot agree after four hours deliberation H B 12, by Mr Ramsby, imposing a fine not exceeding $25, upon any person who shall by signs, words or gestures provoke a breach of the peace, H B 41, by Mr Campbell granting to the courts concurrent jurisdiction with the circuit court in the granting of writs of habeas corpus, H B 43, by Mr Stearns, providing for the redemption of lands sold for taxes, H B 45, by Mr Hewitt reducing fees of county clerks, H B 48, by Mr Tyson, fixing rates of interest at 7 per cent except in contracts, which may be for 10 per cent per annum and no more S B 41, by Mr Hirsch, repealing section 776 of the code of civil procedure and others which we may notice hereafter.

MARRIED:

Sept 22, 1878, near Cedar Mill, Washington county, Mr W W Plimpton of this city, to Miss Alice J Miller of Cedar Mill

WEDNESDAY MORNING SEPT 25 1878

CITY.

RENOVATION INAUGURATED —For a year or two past some farmers have disposed of lots of dirty wheat greatly to the pecuniary disadvantage of purchasers in Portland and sadly to the damage of the reputation of Oregon wheat in the markets of the world To such an extent had this matter been carried that it had become very difficult to sell a cargo of wheat almost We are happy to announce that two of our energetic citizens—the Mefferan Brothers—have two of the best separators the markets of the coast afford with a capacity to clean 150 bushels of Oregon wheat each per hour They are portable At this time they are set up on Flanders' new wharf and in energetic operation on an 8 000 bushel engagement A fact almost incredible showing the condition of this lot of wheat was stated as we stood looking at the machines in operation viz There was a shrinkage of ten per cent in the bulk after the wheat was cleaned Of course this will work a hardship to some individuals for a little while, but the aggregate benefit to the wheat market of Oregon, if this cleaning is persisted in, for years to come will be incalculable It is estimated that this lot of wheat which will cost for cleaning about three cents per bushel will command at least a shilling a hundred more than if it had been forwarded as received from the farm Oregon produces the finest wheat in the world and cannot afford to damage her justly awarded medals of superiority Let it be the ambition of all our people to command the fullest confidence of the corn exchanges of the world and thus in the long run reap the merited harvest of best prices and readiest sales

MERCER'S EXAMINATION —Yesterday forenoon at 9:30 the argument in the case of *State vs J K Mercer*, charged with the murder of A C Macdonald, commenced in the police court Mr M F Mulkey opened the argument in behalf of the state in an able speech of about an hour He was followed by Hon John Gearin, who spoke on behalf of the prisoner but a few minutes, leaving the main argument for the defense to Col Effinger, who spoke for an hour with his usual eloquence The court then adjourned until 3 o'clock when Mr Mulkey closed the argument in a speech of an hour With truth and justice on his side, he had greatly the advantage of his opponent and used it with marked ability and telling effect Judge Adams will render his opinion in the matter at 1 o'clock this afternoon

CONCEALED DEADLY WEAPONS.

We fully approve the following which we take from the *Standard* of Saturday last

The police should be authorized by law to search any man whom they have good reason to suspect of having a weapon secreted upon his person Portland is full of bullies and desperadoes, and the strict enforcement of such a law would undoubtedly be of great benefit to our city's peace and moral tone While we believe in enforcing a law of this kind to the very end of the tether, there are nevertheless, certain people who should be allowed to carry pistols In San Francisco people who have to be out at night or for other good reasons are given a permit to go armed Of course these orders are not given indiscriminately to every Tom Dick or Harry who applies, the applicant must be a man of some standing and show good cause for his desire to carry a weapon Milk men coming into town before daylight those connected with morning papers who do not go home until after daylight policemen who are liable to be called out at any hour and others in similar positions should be entitled by law to be in a condition to protect themselves if attacked Of course if the man armed with a permit and pistol should abuse his privilege by brandishing his weapon unnecessarily drink or bother should be arrested and fined and his license revoked In order to draw some revenue for the trouble of making out these pistol permits a tax should be paid which with the heavy fine for illegally carrying concealed deadly weapons and an active police force, with a law warranting their searching suspected parties the revenue of our city would be very materially increased and the prevalence of crime summarily checked

WASHINGTON COUNTY FAIR

HILLSBORO Sept 21

PREPARATIONS

If there is an institution of this kind in the state most entitled to support and local encouragement it is the Washington County Agricultural Society Its management has been controlled by a class of substantial farmers who for years and years have devoted their time and money freely to the enterprise and that purely from a spirit of public duty No mercenary motives nor hope of any personal advantage has influenced them or if it has they were not the shrewd men they are supposed to be The affairs of the society have always been managed with the care and prudence that characterizes the private business of the members of the board and its liberal course of improvement goes on To day the society though a little in debt is on a substantial basis and better than ever prepared for the success for which it is kept up

Sunday I visited the grounds and was pleased to see the state of preparation for the Fair Buildings have been treated with a coat of whitewash fences renovated wells and pumps repaired the grounds thoroughly cleaned up the track well worked and all done that could be reasonably expected of the society and perhaps more than they will be paid for

Caterers to the public wants and whims are on hand and the manifest improvement in the eating departments is a pleasing feature especially to those unfortunates who have so often been puzzled to decide whether they were filling up with clean sand or less cleanly matter from dish cloths and other indigestible substances Barnes well known to Portlanders and Jake Anderson late our deputy sheriff each have restaurants neat clean well furnished and so far supplied with really good food The butcher stands are represented as usual excepting that there is no indication at present of any of the cold ten and coffee that before now has evaded whisky license and cost the setter so much in fines afterwards The people of this county have demanded a sober and peaceable assemblage at their annual fairs, and they will have it if they don't support the institution thus conducted the directors may be forced to try the other style

Anticipating an influx of the tramps and hoodlums of whose arrival per cheap fare we read so much the society has secured the best available marshals while the adjacent town has provided extra police for the occasion and the outlook for down trodden disciples of Kearney is most discouraging With no show for stimulants, and a certainty of a hard bed behind prison bars for any innocent exuberance in his accustomed line it is hard to see how a poor fellow or set is going to give us any racket that will have any element of fun

HORSES

And horsemen come into a most important feature of all agricultural society meetings and necessarily because this best breed of men is more depended upon in agricultural regions than wherever manufactures and trade occupy men's time Fair without exhibitions of horseflesh would be also without farmers and could easily be held in any small back yard So also the more liberal inducements are held out for horsemen to attend with their stock, the larger the attendance of visitors and the greater good to the community results from all other departments being better patronized

A stroll through the stables developed the fact that but few horses are on hand at this time though the few on the ground contains several first class animals A notable horse is a sorrel 4 year old Sam Tilden the property of Mr J T McDonald of Lake county He is by Norfolk out of Gazelle by Lapidarier and will doubtless be heard from before the season closes

Mat White has in charge old Delaware, Alice Lorne lie the Lindsey mare that took the starch out of Tom Merry and a little Jack Miner called Bloodhum

N Westfall has Wyanoski known to everybody who takes any interest in horseflesh Mollie Fleming a handsome Jack Miner 3 year old, and a very neat bay 3 year old filly Lady Tilden by Delaware

Geo Ross has Old Well known and Nellie Shot well unknown A Hodges has Angeline by Humboldt, and Wm White little boy is the proud possessor of a sturdy iron gray 2 year old George Woods by Delaware

The only trotter at the stables is a brown mare in charge of Wm Ignasan of which William does very little talking consequently we all believe he likes he has a pretty good thing

S G Reed's stock barn stables engaged and will complete the list of horses trained in this vicinity It is not likely that much more stock will be brought here at this late day

THE FIRST DAY

Opened rather inauspiciously The board having set their meeting a week earlier than usual, seem to have stumbled on the very change which Old Probabilities had made He set the September rain a week earlier, and here we are again with a very bad prospect for the track sprinklers Very few visitors ever come on the first day and not even the attraction of a good race could make them break this time honored rule The grounds have been worse than dog trod all day, there being less than 300 persons in attendance At 1 P M the track was cleared for

THE RACE OF THE DAY,

A single mile, free to all for a purse of $30 second money $20 A Hodges named bm in Flora Temple, J T McDonald named s h Sam Tilden and Mat White named b m Alice Cornelius Positions were awarded in the order above named, and at the first trial a fair start was effected The horses, acting badly got a little the worst of it The brown sprang to the front like an arrow and took the track with a clear length by the first turn, but immediately fell back by pulling or bad riding allowing the bay mare to pass on the inside and take the lead by two lengths at the back score which she maintained with little effort throughout, The half was made in 56¼ and here the brown mare got by the barrel and he seemed to suit so much that looking on said he was out of the race However he went to work again and in spite of a bit balking in entering the home stretch got the second money by a bit of good running at the outcome Whites Alice two lengths ahead under strong pull, won the race in 1 57

Immediately after the race a walking match took place, for which there were four entries But little interest was manifested in the outcome and the race was comfortable in the judges stand J Freeman was awarded the first money on his old mare Jenny as she was the square walker Geo Scoggins Dasher took the second premium on the principle, I presume his riding is better than pacing

Entries remain open until 4 P M Tuesday, and subsequently there is hardly any display in the pavilion, and neither cattle sheep nor hogs at the stables at the hour of writing John Whitcombe has entered his Spanish and American merinos and G L Wells, of Multnomah, Spanish merinos

AMUSEMENTS

Are prepared in plenty and I think in better shape than ordinary even Remnant appears in the roll of manager and has nearly filled his room under the Grand stand, where the Ward combination will appear J Lunia to has slight of hand, talking head and all that kind of business The North Yamhill menagerie consists of animals and birds taken in that classic region and includes a vulture not easily taken from a west in that neighborhood There is also a theater arranged in the town, and these with swings etc furnish as many long faced people as we want to meet in one evening

The gentle rains from heaven began descending about 3 o'clock at 5 o'clock it looks just as it did in Noah's time Now, as then some few scoffers say it is only going to be a shower but I remember the fate of those scoffers and want a ticket on the *Great Republic* as soon as the waters permit her reaching this point

Second Day.

HILLSBORO Sept 21

Now is the winter of our discontent made glorious summer etc. The morning dawned, I see, 7 o'clock dawned, for your humble servant not having lost any worms says no claim to being that early bird we hear so much about, but I was saying a reasonable day dawned with the regular October mist which presages such beautiful autumn days and by 9 o'clock the clouds were rolled away from the sky above and from the faces below of many an anxious person whose profits depend on the pleasure of his fellow man at this fair The trains both ways brought more visitors than one can expect considering the weather of the evening before. Wagons hacks, carriages and all the nondescript vehicles known to the averse Webfoot came in from all directions with their freight of people who knew it would clear up today

Exhibitors, too are waxing up and are, sheep hogs poultry etc beam to present a creditable appearance while the pavilion slowly assumes its usual gala day appearance The absence of J K Porter's customary exhibit of flowers detract much from the display and causing regretful remarks Too little attention is paid at the fair to this ornamental branch of industry Imagine when all admit the advantages of refinement is it strange that this most healthful as well as elevating pursuit of ornamental gardening, is so often sneered at as impractical and useless labor

The only event of general interest to day was the

THREE YEAR OLD RACE

Which took place at 1 o clock P M Mat White named b h Hondhum Henry White named b m Wood N Westfall named g m Nellie Fleeting 3 year old Jack Hall named s g for a short time at about $30 on Woods $5 on Hodgum to $1 on Fleetwing Positions were drawn as above named and at the first call the word was given catching Fleetwing napping The two boys got off well together, but in less than all the ground Once entering the back stretch the sorrel had a little of the only good running in the race in 200 yards she took up a gap of 40 yards and allowed her rider to look for but could no stand up to the pace and soon dropped back to the old pace. The two horse one hundred time 2 57 If odd and half a length all of the time, the mare barely saving her distance

Between the heats pools were sold till both horses the backers of the 2 year old had less difficulty in getting Hodgum money but still the knowing ones stuck to the aged mare, at 50 and 55 to 25

THE SECOND HEAT

Was called promptly on time, and the horses stripped showing no signs of fatigue The plucky little two year old has carried his 3 pounds with great ease and all from kept his pools up till the final call Hodgum With very little trouble a second and third heat was all that the mare required dropped out of the race to the first quarter the two horses jogged around in friendly style to the home stretch when Hodgum's rider thinking it time to make a move, put the whip to him and the two came down the home stretch in a gallant style and in good record distancing both his competitors in 1 57 (The time was slow partly on account of the heavy rains on the track over night and partly because the gray clothing was saved for the two year old race for Thursday)

No entries were made for the Washington county purse which was an experiment and not sufficiently advertised to attract breeders attention to them to prepare for the race

SADDLE HORSE RACE

Were next called out, and after rolling out horses owned outside of Washington county Wm Scoggins entered Maverick a race horse which can run and won the heat in gentle trot work of a track Levi Smith entered Hodell mare Jack Norwich and John McAlerman entered Jack Norwich was awarded first and Hoodlum second money though the spectators seemed to decide exactly the reverse

During the afternoon the grounds have been visited by the superb weather and the attendance of dust and heat thinning out all who could reach the place after the weather set in Exhibitors were flying about settling down their stock The pavilion entries improved and the showing and against business people made the morning to a far different tune from that of Monday evening The best of order prevailed and no jar has yet occurred except that a couple of young, roughs fought their knights foot was fighting whisky and I didn't know any better till they were fired off the grounds

A hackman developed a curious idea and started a legal question He obtained a season ticket and also a ticket to admit his team and then refused to take out a hack license and defied the officers to keep him out the grounds I understand the question has taken legal advice and will try to find out who is running the license business

A handsome carriage came to grief on the way from Portland The horse shied and did the whole concern scattering the passengers over the fair acre of ground but without other serious damage than that to the vehicle which reach Hillsboro looking as though it had come through a platoon of artillery

The enterprising chap from Portland is attracting some attention by his sale of brass jewelry to small children He is no expecter of age, sex or previous condition but if a child can walk and has a dollar he will negotiate a sale every time

It was a sight for an artist to see the arrival of the 4 30 train from Portland Monday evening Woodtick were at the standby where there is no confidence for shipping anything but grain Men women and children promiscuously attaches of the various troupes were landed some in the mud and some on a kind of rostrum about four feet high where there was no room except by jumping into the mud and when the crowd and their baggage and property of all kinds besides about four tons of freight were all mixed up there the scene was almost pathetic, A set of half drowned roosters would furnish a very feeble comparison and when Sam Dennis perched on the apex of a huge pile of boxes and bundles and gave a very feeble crow language cannot describe the picture Dennis would not leave his post but manfully resisted all the assaults of rival hawkers declaring that he was order d to wait for a pair of bay horses with a yellow wagon and no other color would suit him I believe they got him away when it got too dark to see the color of the vehicle that hauled him off

Wednesday promises to be the best day of the Fair The track will be in excellent order and a good exhibition may be expected It is said here that a good many visitors from Portland are to be here and indeed that might well be for this is really the most accessible resort to the city The Fair grounds are reached from Portland are quarter from Portland The trip can be made for a dollar and has you can get here quicker cheaper and more comfortable than you can get to the East Portland track and when here you are in a great deal more pleasant country

Letter from Rev. John McMurray.

I cannot but regard the discovery of Fellows' Hypophosphites as a matter of devout thankfulness to a benign Providence.

I have used it myself, and also recommend it to others, and invariably found it to be of essential benefit.

In bronchial and other chest affections, in arresting incipient consumption, and in lessening the distressing symptoms of this disease in its hopeless stages, as well as in cases of nervous debility, in giving tone to the system, it is undoubtedly a valuable remedy.

J. McMURRAY,
Methodist Minister.

Newport, N. S.

The St. John Telegraph says: "The invention of Fellows' Hypophosphites has become one of the valuable industries of the country, unique of its kind, and a credit to the Dominion of Canada."

Power of Speaking Restored.

NEWASH, Ont., D. C., March 30, 1870.

Two months ago my son lost his voice. None of the physicians could do him any good. I obtained a bottle of Fellows' Compound Syrup of Hypophosphites, and strange to say, my son's voice was restored two hours after taking the second dose.

DR. M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit this office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to spirit them away to other so-called Doctors, through pretended friendship for the patients. Look out for them: they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.

Office, 63 First street, over McCormick's Franklin Bookstore.

BEAUTY:

OR, THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the withering effects of American climate, possesses that basis and starting point of all real beauty—a pure and clear complexion. What nature has thus denied, art must be called upon to furnish. It can be done; it is done daily. Prof. W. E. Hagan has placed beauty within the reach of every unbiessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner. It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power. It drives away all evidence of fatigue and excitement. It makes the plainest face beautiful. It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund and plump. It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty, and, while it is as harmless as water, it is as life-like in its effects that the closest observer cannot detect its use. Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

PERCHERON STOCK FOR SALE.

I WILL SELL THE FOLLOWING VALUABLE Breeding Animals:

PRIDE OF PERCHE or GEN. FLEURY, DOLL WHITE ROSE, TEMPEST these are all full bloods. JENNIE a fifteen sixteen h blood. Doll has been bred to "Arabian Boy" the other three to Gen. Fleury. All appear to be in foal, and have proven No. 1 brood mares.

JOSIE, a yearling filly by Gen. Fleury, dam Jennie. This filly will be enrolled in the forthcoming Percheron-Norman stud Book, having fine crosses from Percheron sire.

ELLA, a 2½ yearling filly, by Gen Fleury, dam Maggie.

The above seven horses are the most valuable breeding animals of this Stock ever offered for sale on this coast, and will be a valuable acquisition to any section they may be located in.

I would prefer to sell the lot together.

I will have part of the above number at the coming State Fair.

Also, "ARABIAN BOY," some Yearling Colts and Fillies, with the Shetland Ponies, and Suckling Shetland filly "Minnie."

It is 27 years since the Percheron stock was introduced in Ohio. The Secretary of the Ohio Board of Agriculture J. H. Klippart, Esq., publishes in his recent annual report, replies received from the various counties in the State, to the following questions: Have the Percheron horses been introduced in your county? Do they give general satisfaction? To the first, 68 counties answer Yes. To the second 59 answer Yes, and 9 answered No. And from the same report the average price of good geldings and mares for farm use were held in Union county, where they were first imported, that any other county in the State. This certainly speaks well for the Percherons. Every horseman knows that a large well formed horse will always bring a good price in any market.
